

LAB 4

Outline:

There are two sections in this lab.

1. A programming task

Section 1: Programming task

In this section, a detailed task is provided to you. The task is designed for you to understand how to process data in the PIC24 MCU. Please refer to the “**Lab4Guide**” for details.

Please reference the file “Console.c” within folder ZigBee2006Res. You will find method to display string in another format.
